HASSAN JAVED

Software Engineer

@ hassanjaved186@gmail.com   🌐 portfolio.hassanj.dev
in hassanjaved186   ○ divizn

EXPERIENCE

Software Intern (Remote)
BTMG USA

📅 Aug 2022 – Sept 2022

- Worked alongside a Senior Software Engineer, rigorously testing real world software developed for clients.
- Familiarised myself in an Agile working environment.
- Built on my communication skills by interacting with clients and senior engineers and help during development by identifying bugs

`Python` `SQL` `Node.js` `JavaScript` `Express` `Git`

PROJECTS

Netflix Clone
Front-end clone of Netflix homepage

○ divizn/clone-sites
- Used React and Tailwind to copy the frontend design of the UK Netflix homepage

`JavaScript` `React` `NextJS` `TailwindCSS` `Git`

Discord Spotify Bot
Discord bot used to interact with Spotify API

○ divizn/discord-spotify-bot
- Created a Discord bot in Python with Discord and Spotify API (discord.py and spotipy libraries).
- Learnt how to work with documentation and utilise APIs
- Briefly deployed the bot using Heroku
- This bot has commands which allows a user to search for songs and artists from the Spotify database and a lot more which can be seen in the repository and live demo.

`Python` `Discord.py` `Spotify.py` `HTTP` `Git` `Heroku`

Weather App
Web application displaying realtime weather data

○ divizn/react-weather-app
- Created a weather app in ReactJS that displays current weather information for a city that the user searches for.
- Used openweathermap API to retrieve the weather data via axios library.
- Learnt how to deploy using create-react-app to build the project and then host on Netlify through GitHub

🌐 chipper-nougat-f6362a.netlify.app

`React` `JavaScript` `CSS` `Axios` `Git` `Netlify`

Personal Site
Personal site with my portfolio and other projects

🌐 hassanj.dev

`React` `NextJS` `TailwindCSS` `TypeScript`

EDUCATION

Brunel University London
B.Sc. Computer Science (with Honours)

📅 2021 – 2024   📍 London, UX

Awarded First Class with Honours

`Java` `Python` `Rust` `Go` `TypeScript`
`JavaScript` `SQL` `R` `React` `Nodejs`

SKILLS

Programming & Other Languages

`TypeScript` `JavaScript` `Python` `Rust`
`Go` `Java` `Lua` `C#` `C` `SQL`
`HTML` `CSS` `Sass`

Frameworks, Libs, & Databases

`React` `React Native` `NodeJS` `NextJS`
`Tailwind` `Astro` `Svelte` `Vite` `Bun`
`Tokio` `Nest.js` `Spring` `Django` `FastAPI`
`TensorFlow + Keras` `PyTorch` `Firebase`
`MySQL` `PostgreSQL` `SQLite`

Development Tools & Environment

`Git` `Docker` `Linux` `VSCode` `IntelliJ`
`Postman` `Windows` `Visual Studio`
`Vercel` `GitHub`
